

Introduction

Global Systems a company that was formed with an intention of getting into IT hardware business provided services like AMC, Solutions, Sales of equipment to its customers for a period of about 6 years since its inception in 2001. It was realized by Mr. Manish Bajaj in about 2005 that the industry was fast changing and that the clients had to keep upgrading their equipment to cope up with their technological demands in a very brief period of time.

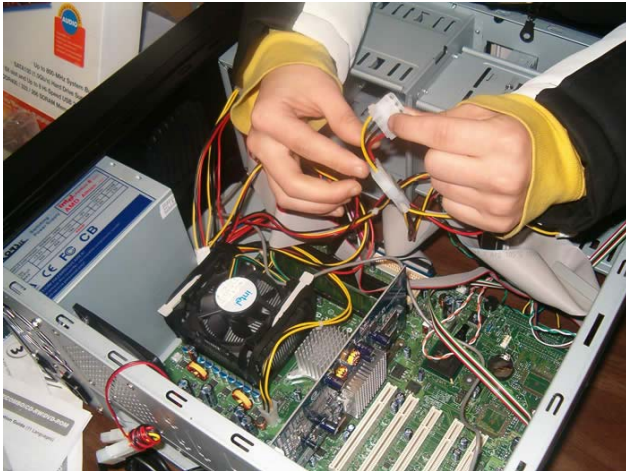

Facilitation of old equipment movement and a regular process of updating their current tech stuff made this process handling for customers very difficult. Capital investments into these ever depreciating equipment was a matter of concern for the finance planners of the company. It was for these realizations that Global Systems came up with Rental solutions for all kinds of IT equipments.

Global Systems is now a team that provides all kinds of IT equipment on Rent Hire or lease basis. Based in Malad (west), Mumbai our core competence is handling huge requirements of clients for any tenure from 1 day to 3 years. In the last few years of service to multinationals, SMB's, SME's, Government organizations and Corporates we have grown to a organization with a very efficient team to satisfy customer needs. We use latest innovations and expertise to help our clients to anticipate, initiate and manage change better.

Making sure that every venture is a success for our clients, We do this for our clients, as we firmly believe that 'When you win, we win'. We believe that business is about long term relationships and the mutual understanding that comes with it.

We aim to be known as a company that delivers consistent value to customers and exceeds expectations.
